Open session Smart Data Models 28-06-2021

Alberto Abella

Data modelling expert

FIWARE Foundation

alberto.abella@fiware.org

Agenda 2021-5-31

Every slot accounts for 5 minutes

Slot 1: Updates of the week (new services and new/updated data models).

Slot 2: Contributors. Contribution workflow.

Slot 3: Free slot (write your name here) You can present or make questions. Include your slides (maximum 2) after this slide.

Slot 4: Free slot (write your name here) You can present or make questions. Include your slides (maximum 2) after this slide.

Slot 5: Free slot (write your name here) You can present or make questions. Include your slides (maximum 2) after this slide.

Slot 6: Free slot (write your name here) You can present or make questions. Include your slides (maximum 2) after this slide.

Slot 1: Updates of the week

New data models:

1. [Water consumption.](#)
2. [CityWork](#)

Past Events:

1. I4trust training. [slides](#)

Coming events:

See [calendar](#):

Slot 1: Updates of the week

Updated data models:

New Subjects and Domains:

1. [Water Consumption.](#)
2. [CallComplaints.](#)

Slot 2. Regulations to be adopted a pending topics

Solved topics

1. **How to warn about new data models coming?.**
 - To announce every initiative now there is a form it will be filled for new projects in incubated repository (and sending messages top current ones)
<https://smartdatamodels.org/index.php/new-incubated-data-models/>
 - The list of them. <https://smartdatamodels.org/index.php/projects/>
2. **Release the script for the creation of documentation**
 - Release the script for the creation of model.yaml

Slot 2. Regulations to be adopted a pending topics

Pending topics

1. Study automation of examples conversion.
2. Review of key values examples.

Slot 2. Regulations to be adopted a pending topics

Regulations

1. DCAT-AP

- a. **Data Models for Dataset, distribution, agent, data service and open data portal**
